

# Prepare for C++ Institute Certifications

## – While working on your AAS Degree or Certificate of Achievement

The CIT Department at the College of Southern Nevada offers many courses to help you prepare for industry-recognized certifications. The courses will also fulfill requirements for AAS Degrees and Certificates of Achievement. This document presents C++ Institute certifications and their associated courses. All courses are 3 credits, unless noted otherwise.

*The course material of each class can serve only as a guide to the specific topics covered in the certification exams. Passing these classes does not guarantee that you will pass the certification exams. Additional review and practice will be required to achieve the mastery of the concepts and skills needed to pass the exams.*

(If you already hold *current* versions of these industry certifications, you may wish to use them to petition for **Non-Traditional Educational (NTE)** credit for relevant courses required for AAS degrees or Certificates of Achievement. Specific rules, procedures and limitations apply. See the [Alternative Credit Options](http://catalog.csn.edu/content.php?catoid=3&navoid=118#alternative-credit-options) (<http://catalog.csn.edu/content.php?catoid=3&navoid=118#alternative-credit-options>) section in the online 2020–2021 General Catalog, Admission Information for details.
